When safety matters

We tackle today's challenges using innovative solutions based on proven technology.

Our solutions are certified by all major classification societies and designed in accordance to IMO, SOLAS, MARPOL and where applicable also the MED requirements. We often go beyond statutory requirements when satisfy our customers specific requirements.

We are where you are

Our customer base stretches around the world. That's why we have our own offices in almost 20 countries and service and sales partners in more than 40 countries. So wherever you are – you are never far from Consilium.

Using our solutions gives you with the peace of mind that only comes from long term experience. From engineering and installation to service and maintenance Consilium provides you with the assurance of top quality and in-depth industry knowledge.

We have been active in most major markets for more than 20 years during which time we have earned a reputation for un rivaled quality and integrity which has made us the preferred choice for the most discerning of customers.

Full service and support everyday

As an essential part of our commitment to first class customer care we offer a total service and support package which means you can have what ever you want every day of the year. In pure practical terms we are never

further away than your mobile phone or an email.

We operate a long-term commitment to all of our customers culminating in us taking responsibility for the

Giving you the very best

Innovation is, and has always been, the key to our success. Our product design and development program is largely customer driven which ensures that our solutions are in step with industry demands and user focused.

Regulatory demands are a vital aspect of the marine environment and we are extremely vigilant in making sure that our products are in line or exceed all standing regulations.

So when you buy a Consilium system you are assured of safety, reliability and performance.

Throughout the whole process

At Consilium we constantly review and refine our working processes to make certain we offer our customers the best possible level of service.

Our focus is on providing you with shorter lead times on your orders. Therefore we place equal importance on ensuring that all of our deliveries, whether of a complete solution or a shipment of spare parts, arrive at the right destination at the right time.

To increase our efficiency we distribute stock from our global network of offices which helps ensure rapid service and the supply of material.

Should you have any questions concerning the deliver of your order simply contact your local Consilium office who will provide you with an up-to-the minute status report on your order.
