TALK SAFETY WITH US

BUILDING SAFETY TECHNOLOGY
A MULTITUDE OF WAYS FORWARD.
WHERE DO YOU WANT TO START?

When you choose Consilium, you tap into an ocean of knowledge. We provide the building sector with fire and gas detection systems living up to tough demands. Talk safety with us – we are ready when you are.

+ LIFE-CYCLE SUPPORT
  All the way from design and installation to training and maintenance.

+ RISK AND SAFETY ASSESSMENT
  We make sure your fire and gas detection systems are prepared for the worst.

+ INSTALLATION AND INTEGRATION SIMPLICITY
  One common and modular-based platform to learn and live with.

+ STAFF AND TENANT SAFETY
  Taking safety seriously is about never compromising on human lives.

User-friendliness is at the heart of Consilium – you should be able to work with our system without having to dig deep into a manual every time.

Jonas Edén
Product Manager, Consilium Building Safety AB

Growing up is never easy, but that was a long time ago.

100+ YEARS’ EXPERIENCE
75K INSTALLATIONS

Consilium has an installed base of 75,000 fire and gas detection systems worldwide in the oil and gas, marine, transport and building sectors. Our journey began in 1912, and since then we have been driven by innovation. In 1959 and 1967 we introduced our gas and fire detection systems which became important milestones.

Fire detection
Gas detection
Lifesaving by interaction is about making humans and detection systems work together to protect people at work, children at school and families at home. Every second of the day, every day of the year. We make sure you get the right products, right away, all the way.

Electronic devices and systems are fundamental to our modern way of living, but also potential sources of fire. And let’s not forget candles and fireplaces. Having a fire detection system that reacts immediately to real and critical fire alarms is crucial.

In 1972, we delivered our first fire detection system to the building sector. Today our system is used in many types of buildings in northern Europe.

In the building sector, you need quick access to service and support. In the local language, with local knowledge. We are present in Denmark, Finland, Germany, Ireland, Norway and Sweden with certified technicians.

Life-cycle support

WHEN YOUR BEST FRIENDS BECOME YOUR WORST ENEMIES.

BEING CLOSE TO CUSTOMERS IS PART OF OUR DNA.

Compliance with rules and regulations
TAKING SAFETY SERIOUSLY
IS OUR DRIVING FORCE.

Our systems protect people, material values and the environment. We believe safety in public and private buildings is crucial and combine in-depth technical knowledge with broad construction experience. You can always expect us to find the right products for your needs and give your staff the right training. We also ensure that our systems are easy to operate.

FIRE DETECTION
Smoke, Heat, Flame

GAS DETECTION
Sampling, Point

“ We offer a safe system that is intuitive and easy to handle.”

Martin Lagerstedt
Key Account Manager, Consilium Building Safety AB

ONE PLATFORM TO LEARN.
ONE PLATFORM TO LIVE WITH.

The technical base for our systems and integration with other systems is CCP: Consilium Common Platform. One platform makes life easier all the way from design and installation to training and maintenance. The platform is developed in-house giving full control of critical functionality, as always with Consilium.

FLEXIBLE ENOUGH TO
GIVE YOU TOTAL FREEDOM.

Consilium Common Platform is modular-based. Choose the products you need today and change to whatever products you need tomorrow. Integration with external systems, such as building management and graphical systems, is also easy as modules can be designed for specific assignments.

NON-STOP UPTIME
UPGRADE WHILE OPERATING

YOU ONLY NEED ONE LIFEGUARD.
THE BEST THERE IS.

SensEye™ is a multi-talented lifeguard. One detector is all you need as it detects both black and white smoke anywhere and anytime – you can keep stocking of spare parts to a minimum. SensEye is easy to install physically and to configure from the central panel.
FOR ALL THOSE MOMENTS
WHEN SAFETY MATTERS

Consilium is a producer of safety technologies for the marine, oil and gas, transport and building sectors. Our commitment goes beyond the products: We protect the lives of mothers and fathers, sisters and brothers, colleagues and friends. With representation in more than 55 countries in all time zones, we are always close to you.
