CONISLUM MARINE & SAFETY

VISION & MISSION STATEMENT

Consilium is a company to count on. Our customers, our employees and our stakeholders count on us and expect us to be professional, skilled and co-operative, which we are, in more than 20 different countries. With more than 600 employees, we make business all over the globe. We have a strong mission and we are on the right course to continue our successful journey.

Consilium needs a good mix of entrepreneurship, responsibility and co-operation. This will give us an efficient organization, with the power to grow and develop further. When we all work together; guided by the same vision and basic values, only the sky will be our limit.

Consilium will build a cost efficient organization, with competent and dedicated employees taking responsibility. To build this organization and to remain competitive, as a preferred supplier and employer, we need to define and implement our common mission and vision. This will be the compass towards our future destination and our guideline worldwide.

For Consilium quality and safety are always high on the agenda. We continuously work to improve our processes and procedures in a systematic way, in order to fulfil applicable customer, legal and authority requirements.

CONSILUM CORE VALUES

OUR COMPASS

WE ARE ONE GLOBAL TEAM

• I give a helping hand, even when it means extra work
• I am honest and straightforward in my communication
• I trust the ability and competence of my colleagues
• I appreciate suggestions and ideas from others
• I share my knowledge

WE TAKE RESPONSIBILITY – I TAKE INITIATIVES

• I keep my promises – internally and externally
• I search for information and ask for help when needed
• I think “customer value” before I spend time or money
• I react and report back when something is wrong or doesn’t work

WE DELIVER

• I deal with problems right away
• I take necessary decisions – and base them on facts
• I understand my role and how I can influence our sales
• I look for smarter solutions and continuous improvements
• I go full speed ahead when we have decided on what to do
